DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dale Holling on September 21, 2006.

The application has been amended as follows: Claims 16-20 have been canceled.

Allowable Subject Matter

- 2. Claims 1 and 3-15 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: Claims 1 and 3-8 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein system includes a clock shaper (14) that generates an access clock for clocking the memory (18) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 9-15 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1 wherein the method of operating includes splitting an eternal clock into at least three clock lines and delaying a third of the plurality of clock lines to form a slave clock (performed by the second delay block 30) in combination with the rest of the limitations of the base claims and any intervening claims.

Art Unit: 2816

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
